RE: U.S. EPA Indian Environmental General Assistance Program
GA99T04501-2
Application Due: ~~APR 13 2015~~ MAY 18 2015

Dear Chairman Honanie:

I am pleased to inform you that your proposal submitted to this office under the U.S. Environmental Protection Agency's Indian Environmental General Assistance Program (GAP) has been tentatively approved for funding. At this time, I am setting aside \$195,700 of funding to support your GAP for one year. An additional \$71,400 has been tentatively set aside for supplemental activities as follows: \$45,400 for a solid waste compliance officer position, \$6,000 for a new copy machine for the GAP program; and \$20,000 for a GAP program replacement vehicle. In separate budget and work plan commitments, please include the supplemental requests for your program. If additional GAP funds become available and your requests are approved, some or all of your supplemental requests may be awarded. The total tentative funding amount for your GAP is \$267,100.

Work plan submission, negotiation, and approval will be conducted electronically in GAP Online.

The comments attached here for your reference are also available in GAP Online. If we receive your complete application and an **approvable** revised work plan by the due date we will make every effort to award the grant by September 30, 2015. This funding will support work plan activities from October 1, 2015 to September 30, 2016. Please do not incur any costs under this work plan until the official grant award document has been signed and dated by the EPA Award Official. Any costs incurred before the date of award will not be reimbursed.

This letter does not constitute a grant award. In order to receive funding, the Hopi Tribe will need to complete an Application for Federal Assistance (SF-424). **The complete application, including an approvable work plan, must be submitted for EPA review by the due date indicated above.** Materials can be submitted earlier and will be processed on a first-come, first-served basis. Please note that in completing your application, you will need to enter the GAP Catalog of Federal Domestic Assistance Number (CFDA), required in box #11 on the SF-424A application form, 66.926.

New Process for Submitting Your GAP Grant Application

Effective February 17, 2015, EPA grant applicants **must** use Grants.gov to submit their applications. The Grants.gov registration process can take up to 30 days to complete. Therefore, it is highly recommended that EPA applicants complete their registration on Grants.gov now. Also, your organization's registration in SAM.gov must be active to utilize Grants.gov. If it appears that the grants.gov registration process may prevent you from submitting your application by the due date aforementioned, then please contact

Support@grants.gov or call 1-800-518-4726 as support is available 24 hours a day and 7 days a week. You should also notify your Project Officer before the application due date to request an extension.

Please review both Attachment 2 (Grants.gov Instructions Guide) and Attachment 3 (Region 9 Guidance Information for Applicants) or go to <http://www.epa.gov/region9/funding/information.html> to find additional resources on Grants.gov, Federal Regulations, and new EPA requirements. We suggest you forward these materials to your Project Manager, Financial Officer and any other personnel in your organization requiring this information.

I look forward to working with you and your staff under the General Assistance Program. Questions regarding the completion of the application forms as well as the mandatory use of grants.gov should be referred to Vernese Gholson, Grants Management Specialist, at (415) 947-4200. You can also contact your GAP Project Officer, Pamela Overman at (415) 972-3781 if you have questions regarding this letter, the work plan or the General Assistance Program.

Sincerely,

Laura M. Ebbert
Manager
Tribal Section

GAP 2015-2016 Work Plan Comments

Hopi Tribe

Thank you for submitting a work plan that is in line with the 2013 GAP Guidance. The following comments and requests were written with the intent of ensuring the work plan meets GAP guidelines, strengthening the Tribe's GAP work plan, and identifying possible assistance. These comments pertain to the 2015-2016 work plan that was submitted with your GAP proposal in December 2014. **Please ensure that these comments are addressed in your final work plan in GAP online.**

General Comments

1. **The following references are useful for understanding GAP in general, for getting an understanding for environmental outcomes, etc.**
2013 Guidance on the Award and Management of General Assistance Program Agreements and Appendix I, Guidebook for Building Tribal Environmental Program Capacity
<http://www.epa.gov/region9/funding/pdfs/tribal-gap/r9-gap-guidance.pdf>
GAP Act (<http://www.epa.gov/Indian/pdfs/4368b.pdf>)
2015 GAP Grant Notification (<http://www.epa.gov/region09/funding/tribal-gap.html>)
EPA Strategic Plan (<http://www2.epa.gov/planandbudget/strategicplan>)
2. **Environmental outcomes should be expressed in terms of improvements to public health, the environment, or human behavior.** They can also reflect improved tribal capacity to protect public health or the environment. Intermediate outcomes could reflect: a) improved human health or environmental conditions, b) reduced risks to human health or the environment, c) increased tribal capabilities in legal, enforcement, technical, communication, or administrative areas. Long-term outcomes could include attainment of desired environmental conditions (e.g., water quality standards are met) or human health goals, attainment of a desired capacity to plan, develop, implement, manage and sustain tribal environmental programs.
3. **Please ensure that each component in your work plan contains one or more capacity indicators that appropriately links to the commitments.** Capacity indicators represent the destination of the Tribe's work and therefore the Tribe should express how it will accomplish the tasks necessary to achieve the indicators proposed in its commitments. Moreover, capacity indicators should ideally be placed in the "Measures" section for each component in the work plan. More information on the appropriate use of indicators is found on page 13 of the GAP Guidance. A suite of indicators that the Tribe may consider for inclusion in its work plan is contained in Appendix I of the GAP Guidebook.
4. **Please ensure that the total work plan Estimated Component Costs add up to the total approved budget amount indicated in the cover letter, and that the total work plan Estimated Work Years adds up to the total number of approved personnel funded under GAP.** I have attached a document entitled "Component Cost and Work Years Guidance" that will help you to correctly identify Component Costs and Work Years to comply with this request.
5. **Greening Grants Policy:** EPA Region 9 has adopted a Greening Grants Policy which encourages grantees to carry out their EPA grant funded projects in a greener way. Where feasible, please incorporate green practices into your work plan. The Greening Grants Policy includes an attachment which describes many useful green practices. The policy furthers the objectives of EPA's 2011-15

Strategic Plan. The link to Greening Grant Policy is on the Region 9 Website Homepage, <http://www.epa.gov/region9/funding/greening-grants.html>

6. Indirect Costs:

Please refer to CFR 2, Part 200, Section 200.414 for more information regarding indirect cost rates.

BUDGET COMMENTS

All funding amounts are tentative until the final amount is received in an award document.

The total tentative funding amount is \$195,700 for the core GAP program. This amount provides funding for the Environmental Director, Grant Educator and a Secretary.

In addition, please include a separate budget for \$45,400 for the Solid Waste Compliance Officer, \$6,000 for a new copy machine and \$20,000 for a replacement vehicle for a total funding amount of \$267,100.

All funding is contingent on the receipt and approval of a revised workplan that incorporates the comments below.

Personnel:

The Tribal Program Office cannot guarantee that funding for the current level of FTE can be maintained through future funding cycles, especially given that funding of the GAP program at a national level has not increased significantly over the last few budget cycles and, in some years, the program has experienced a net reduction.

WORK PLAN COMMENTS

Commitment Descriptions: Please ensure each commitment provides **why** the Tribe has proposed each activity, **who** will need to do **what**, **where**, **when** and **how**, to complete proposed activities. This type of information helps quantify the level of effort (FTE and Cost) required to complete commitments, which in turn helps project officers determine if identified costs appear reasonable. Build this type of information into each of your commitment descriptions.

Deliverables: Each commitment deliverable includes performance reporting due dates. Please remove this from each deliverable except for commitment 1.2.

Development of an EPA/Tribal Environmental Plan (ETEP): In FY15 the Tribe is preparing a draft Tribal Environmental Plan. The TEP is one of three elements that lead to the development of an EPA-Tribal Environmental Plan. Please include the development of the full ETEP in your FY16 workplan. Attached is an example work plan component for the development of an ETEP. Please ensure that your ETEP component minimally includes the information and timeline contained in this sample work plan component. For additional assistance, please contact your Project Officer.

Component 1. Continuing Programmatic Needs & Capacity Building

The cost of this component seems high. Please provide additional information to support the anticipated component cost. One option is to provide a cost breakdown by commitment to support the total cost.

Commitment 1.2: Please revise this reporting commitment to include: Submit quarterly progress reports to self-evaluate and to jointly evaluate annual performance under the grant including: status of each work plan component, commitment, output/deliverables and outcomes; status of expenditures for the reporting period; summary of accomplishments, including the reporting of environmental results and

discussion of problems impacting or expected to impact performance; and tasks not on schedule and proposed dates of completion. Each report will be submitted on the 30th day after the end of the quarter i.e., January 30, April 30, July 30, and October 30. The recipient shall submit a final report within 90 days of the end of the project period. Output/Deliverable: Four quarterly reports due on the following dates: January 30, April 30, July 30, and October 30

Joint Evaluation: Portions of a Joint Evaluation process are missing. Please see Attachment F from the notification to ensure that the work plan contains a process in which EPA and the Tribe together evaluate the successes of the Tribe under GAP. The attachment can be found at:

<http://www.epa.gov/region9/funding/pdfs/tribal-gap/fy2015-r9-gap-notification-attach-d-workplan-quarterly-report.pdf>

Commitment 1.3: Per the GAP Guidance, GAP funds can be used to develop environmental program capacity. Please describe how you will develop the capacity per the referenced indicator (B.7.4). Please include the approximate number of meetings needed, based on your prior years' experience. Please also include the information requested in the "commitment description" comment above.

Commitment 1.4: Please remove the Secretary's travel to the conference because it was not approved.

Commitment 1.5: As written, this workplan activity is vague. Please describe **who** will need to do **what**, **where**, **when** and **how**, to complete the activities. Please include specific deliverables that support the proposed work and summaries of completed work.

Commitment 1.6: The development of training plans for staff is a great activity. Please describe if the training plans will be for one-year or multi-year. Please also include copies of each employee's training plan as a deliverable.

Commitment 1.7: The GAP Guidebook describes capacity indicator E.3.15 as: Tribe has established capacity to provide information to EPA that may be used to conduct compliance monitoring inspections or in a RCRA § 3008, § 7003, § 4005(c)(2), or § 9006 enforcement action. Please add the specific activities that are proposed to develop this capacity. Please note that activities conducted under the GAP Guidebook, Section E.4(d)(iii), which you reference, are not GAP eligible unless they have been submitted to the American Indian Environmental Office for prior approval. If you wish to conduct activities under this section of the GAP Guidebook, please contact your project officer immediately. As a deliverable please only include a description of, and copies of, work that the GAP staff complete. Please do not include copies of materials produced by other departments or agencies.

Component 2: Public Education and Community Involvement

You may want to consider capacity indicator B.4.3 for this Component.

This component is good as written.

Component 3. Engaging Tribal Community Members and Youth

The outreach activities associated with this commitment are eligible and can remain in this workplan. The Tribe does not have a current, approved Integrated Solid Waste Management Plan. Therefore, conducting a community cleanup activity and the associated disposal costs are not approved because they are solid waste implementation activities.

This component cost is estimated at \$60,089, therefore the Tribe will need to negotiate additional work to incorporate into this workplan to receive this portion of funding.

Community Cleanup Events: Community cleanup events can be beneficial to remove waste from tribal lands. However, community cleanup events should not replace sustainable solid waste collection services or serve as de facto waste hauling/disposal programs. The tribe must demonstrate that the following criteria are met when submitting a revised workplan that includes a community clean-up event:

Criteria

- The Tribe has an Integrated Solid Waste Management Plan (ISWMP) and the plan demonstrates a clear need for community cleanup events;
- The Tribe has a functioning waste collection/hauling/disposal system in place that is used by the majority of the community;
- The community cleanup event is **not** removing trash from individual homes, caused by individual users;
- The community cleanup is **not** replacing regular trash collection services for residents or businesses;
- The Tribe has a program in place to prevent future dumping that would eventually eliminate the need for community cleanup events.

Component 4: Waste Characterization

This activity has been approved and funded for the current year workplan. Per EPA's recent conversation with you regarding this activity, you will need to remove this component from the FY16 workplan.

This component cost is estimated at \$36,053, therefore the Tribe will need to negotiate additional work to incorporate into this workplan to receive this portion of funding.

Solid Waste Activities:

Our records show that the Tribe has an Integrated Solid Waste Management Plan from 1996. To ensure the greatest opportunity for success of your solid waste management program, it is recommended this ISWMP be updated to reflect the current solid waste management operations and needs of the Tribe. The agency recommends that the plan be reviewed on an annual basis to ensure consistency with the Tribe's priorities, and should be reauthorized every five years. Having an updated and relevant ISWMP is critical for maintaining a sustainable waste management program, and for identifying and organizing current waste management priorities for the Tribe. Prior to undertaking solid waste activities proposed in this workplan, the ISWMP should be updated and approved by the Tribal Council. The Region 9 Tribal Solid Waste Team is available to provide technical assistance and a comprehensive review of the ISWMP.

Component Cost and Work Years Guidance

Applications must include estimated component cost and associated work years. At present, Tribes are providing estimated costs that do not, when added together, equal the total budget request and budgeted FTE supplied with the work plan.

Suggested instructions for Tribes:

Estimated Component Costs should, when added together, equal the total budgeted amount. Two suggested ways to arrive at numbers that are equal:

- 1) Evaluate the relative *percentage* of financial resources each work plan task will take, each task being some percentage of 100; multiply that percentage by the total budgeted cost to get the estimated cost per component.

	Component 1	Component 2	Component 3	Total Budget
Percentage of Total:	25%	45%	30%	100%
Cost:	\$ 29,319	\$ 52,774	\$ 35,183	\$ 117,275

- 2) Alternately, as an addendum to calculation of the Total Program Budget, add columns wherein the contribution of each component to the total budget is calculated, and total component budgets across budget categories, applying indirect costs if applicable, personnel costs, and fringe. This "estimate" leans more toward accurate budget numbers.

Category	TOTAL	Component 1	Component 2	Component 3
(FTE)	1.5	0.375	0.6	0.525
Personnel	\$ 55,000	\$ 13,750	\$ 22,000	\$ 19,250
Fringe	\$ 18,150	4,537.50	7,260.00	6,352.50
Supplies	\$ 5,000	500	4100	400
Travel	\$ 5,000	4200	800	0
Equipment	\$ -	0	0	0
Contractual	\$ 15,000	4000	8000	3000
Subtotal	\$ 98,150	\$ 26,988	\$ 42,160	\$ 29,003
Base for Indirect	\$ 83,150	\$ 22,988	\$ 34,160	\$ 26,003
Indirect	\$ 19,125	\$ 5,287	\$ 7,857	\$ 5,981
Total	\$117,275	\$ 32,275	\$ 50,017	\$ 34,983

Estimated Component work years should, when added together, equal the total budgeted FTE for the program. One work year is equal to 2,080 personnel hours. A work year is also known as a full time equivalent (FTE), since it is based on a full time job; 40 hours per week * 52 weeks per year = 2,080 hours per year.

Two suggested ways to arrive at numbers that are equal:

- 1) Evaluate the relative *percentage* of staffing resources each work plan component will require, each component being some percentage of 100; multiply the percentage for each component by the total requested FTE to arrive at the estimated FTE per component.

<i>staffing</i>	Component 1	Component 2	Component 3	Total Budget
Percentage of Total:	25%	40%	35%	100%
Cost:	0.38	0.60	0.53	1.50

- 2) Alternately, when calculating the budget in the detailed manner for the Estimated Component Cost, take the FTE applied to each component and use that value to represent the estimated component FTE.

Developing an EPA-Tribal Environmental Plan (ETEP) in FY2016

In FY15 the Tribe is preparing a draft Tribal Environmental Plan. The TEP is one of three elements that lead to the development of an EPA-Tribal Environmental Plan. Please include the development of the full ETEP in your FY16 workplan. Enclosed is the ETEP work plan component template. If you have developed a recent environmental inventory, please inform your Project Officer and delete that commitment from the component. If you have questions about the other commitments, please contact your Project Officer.

The ETEP requirements are outlined in the National GAP Guidance on pages 13-19. Below is information about the Tribal Environmental Plan that will be part of the ETEP.

Tribal Environmental Plan

The GAP Guidance states the following about the content of the TEP:

Tribal governments should include environmental program priorities for their community in this section of the ETEP. For each priority, the following detail should be included: (1) short description of the priority; (2) the tribe's long-term environmental program development goals that help to address or support the priority; (3) intermediate program development milestones the tribal government would like to meet during the time period of the ETEP; (4) the tribe's plans to manage authorized environmental programs; and (5) any type of assistance (training, technical assistance, EPA direct implementation actions, financial, etc.) that may be needed. This information should be discussed between the tribe and EPA regional office staff to identify any connections between the tribe's priorities and the implementation of the federal environmental programs, and to identify potential EPA assistance that could be provided to help the tribe accomplish the proposed actions.

EPA recognizes that the Tribal Environmental Plan is a tribal document that represents the issues of importance to the Tribe; the TEP can cover a range of issues including environmental impacts that may occur off the reservation, but impact the tribe or Tribal interests.

The TEP will help guide EPA and Tribal work in the future. As the GAP Guidance states, future approvable GAP workplans will be based on the contents of the TEP. Please include an appendix section where the tribal priorities each have a program indicator from the GAP Guidance and Guidebook.

Component 1: ETEP Development (EPA Tribal Environmental Plan)				
Program Capacity: Environmental Program Administrative Capacity				
Indicator(s): B.5.1				
*Development of ETEP that expresses environmental priorities and goals to be focused on during the coming four fiscal years				
Estimated Component Cost: \$xxxx			Estimated Component Work Years: 0.xx	
Commitments	Position	Estimated Cost (optional)	End Date	Outputs and Deliverables
1.1 The Tribe will review and provide comments on the list of regulated facilities on Tribal lands (generated by EPA and provided by EPA to the Tribe).			3/31/2016	Comments on the EPA's list of regulated facilities will be provided.
1.2 The Tribe will review and provide comments on the Areas of Involvement Document (provided by EPA). This document summarizes the current EPA program engagement with the Tribe and EPA's program authorities.			4/29/2016	Comments provided to EPA on the areas of involvement document will be provided as a deliverable.
1.3 The Tribe will review and update the current Tribal Environmental Inventory, or develop a new TEI. The Tribe will ensure the TEI contains the most up-to-date information on environmental quality or issues. <i>The Tribe can request the R9 template to review as a sample inventory document.</i>			5/31/2016	A copy of the completed Tribal Environmental Inventory will be submitted to EPA.
1.4 The Tribe will develop and submit a draft Tribal Environmental Plan (TEP) to EPA. The updated TEI will inform the TEP development. The Tribe will work with the community and Tribal Council to ensure the TEP includes the elements described in Section 4.3(1) of the 2013 GAP Guidance. The Tribe will incorporate into the TEP or as an appendix an identification of which Capacity Indicators described in the GAP Guidebook will support the Tribe's GAP-eligible work within the TEP.			6/24/2016	A copy of the draft TEP will be submitted to EPA by 6/24/15.
1.5 Final Tribal Environmental Plan to be submitted to EPA.			7/29/2016	A copy of the final TEP with Council approval will be submitted to EPA.
1.6 The Tribe and EPA will begin discussions on mutual environmental priorities for the cover memo.			8/31/2016	List of environmental priorities to be submitted to EPA.
1.7 The Tribe and EPA will collaborate on a cover memo to be signed by both parties that identifies areas where EPA's and the Tribe's goals align – areas where we will be working together to accomplish mutual interests.			9/30/2016	The Tribe and EPA will develop and finalize a signed cover memo for the ETEP.
1.8 The final ETEP will be an assembly of the four documents above (items 2-5), or a narrative document that incorporates the contents of items 2-5 into a cohesive text. Future GAP workplan commitments will be developed from the final ETEP document.			9/30/2016	Either the assembled four section document or narrative document will be on file with EPA and the Tribe.

EPA Region 9 - Grants.gov Instructions Guide

(March 2015)

Applications for Federal assistance must be submitted through Grants.gov.

Register with Grants.gov! In order to submit your application using Grants.gov, your organization must be registered with Grants.gov. Please allow four weeks to complete the registration process. Also, please note that you must have a DUNS number and an active SAM.gov registration before registering with Grants.gov. You can find more information about registering at:

<http://www.grants.gov/web/grants/applicants/organization-registration.html>

To Access and Download Grant Application Package go to:

<http://www.grants.gov/web/grants/applicants/download-application-package.html>

1. Funding Opportunity Number (FON).

- A. Competitive Programs: Refer to the competitive solicitation for the applicable FON. Applicant will enter this into the "Funding Opportunity Number" field to locate the application package.
- B. Non-Competitive Discretionary Programs: Obtain FON from your EPA Point of Contact (POC). Applicant will enter this into the "Funding Opportunity Number" field to locate the application package.
- C. Continuing Environmental Programs (CEPs): The list of available CFDA numbers for CEPs have been divided between two FONs. The two FONs used to access the application packages are **EPA-CEP-01** and **EPA-CEP-02**. Refer to the following Attachment to determine which FON your CFDA is published under. Applicant will enter this into the "Funding Opportunity Number" field to locate the packages.

CFDA Number: (#

→ Funding Opportunity Number: (C

Funding Opportunity Competition ID: (C

- 2. **Download the package** associated with CFDA 66.XXX.
- 3. **Complete the Grant Application Package.** Attach the forms and information required by your particular program. *Contact your EPA POC if you have questions about which forms and materials you must submit for your program.*
- 4. **Submit your application.** Go to <http://www.grants.gov/web/grants/applicants/apply-for-grants.html> for more information on this process.
- 5. **Confirm with your EPA POC** that EPA has received your application package. *If for ANY reason you cannot submit your application by the deadline specified, contact your EPA POC immediately.*

For FAQs, User Guides, Checklists, Training and Technical Support, visit the Grants.gov Applicant Resource page at <http://www.grants.gov/web/grants/applicants/applicant-resources.html>

Technical Questions or Issues? Please call (1-800-518-4726) or email (support@grants.gov) the Grants.gov Contact Center (<http://www.grants.gov/web/grants/about/contact-us.html>). Help is available 24 hours a day, 7 days a week.

Region 9 Guidance Information for Applicants <http://www.epa.gov/region9/funding/information.html>

- Omni-Circular under 2 CFR 200 & EPA Regulations under 2 CFR 1500:

EPA has officially adopted the OMB Omni-Circular effective **December 26, 2014**. Specifically, in a joint interim final rule published in the Federal Register on December 19, 2014 (see 79 Fed. Reg. 76050-76063), EPA adopted the Omni-Circular. This includes adoption of Omni-Circular requirements located at 2 CFR 200 along with EPA-specific provisions mandated by statute, regulation or agency policy now codified under 2 CFR 1500. OMB's website at <https://cfo.gov/cofar/> is the location for resources regarding the Omni-Circular, including OMB's Frequently Asked Questions (FAQ).

- Interim Financial Assistance Conflict of Interest Policy:

In accordance with the Omni-Circular's Conflict of Interest disclosure requirements under 2 CFR 200.112, EPA issued the Interim Financial Assistance Conflict of Interest Policy.

Requirements include applicants providing a prominently titled conflict of interest disclosure statement attached to the SF 424, if applicable. This policy applies to all individuals and non-federal entities requesting and receiving EPA financial assistance on or after **December 26, 2014**. (Note: A standard EPA form is not currently available for the COI disclosure requirement since this is an interim policy.)

Interim Policy:

http://www.epa.gov/oqd/epa_interim_financial_assistance_coi_policy.htm

- Submission of Grant Applications via Grants.gov:

Effective **February 17, 2015**, EPA grant applicants must use Grants.gov to submit their applications. It is highly recommended that EPA applicants complete their registration on Grants.gov now, since the entire process can take up to 30 days to complete. Information located at Submitting an Application to Grants.gov Apply and Applicant Resources for Grants.gov will help you get started. Applicants are also encouraged to view a previously recorded EPA Information Webinar session/ presentation regarding Grants.gov or register for an available session.

Grants.gov support/assistance is available 24 hours a day 7 days a week at 1-800-518-4726 or Support@grants.gov. For International callers, call (606) 545-5035 to speak with a Grants.gov Contact Center representative. Also, the Region 9 Application Checklist will help ensure your EPA application submitted through Grants.gov is complete.

Guide on Submitting an Application to Grants.gov:

- **Bundling of Grant Application Certifications (for States & Tribes):**

State and Tribal applicants are highly encouraged to submit annually a single set ("bundling") of application certification forms with a cover letter. The letter must indicate the applicable timeframe (usually a federal or state fiscal year) of the certifications for all EPA grant applications received by Region 9 Grants Management Office (GMO) within that period. GMO accepts Adobe format (.pdf) of the letter with applicable signed certification(s) through the electronic mail box:

grantsregion9@epa.gov. Please note that updated forms must be submitted when changes to the responses are required. The following certifications can be bundled:

- ❖ [Standard Form \(SF\) 424B, Assurances for Non-Construction Programs](#)
- ❖ [EPA Form 6600-06, Certification Regarding Lobbying, Certification for Contracts, Grants, Loans and Cooperative Agreements](#)
- ❖ [EPA Form 4700-4, Preaward Compliance Review Report for All Applicants Requesting EPA Financial Assistance](#)

Applicants are highly encouraged to use bundling of their certifications if multiple EPA applications are submitted annually. Bundling can be especially helpful as EPA is transitioning to Grants.gov. Please contact your EPA Grants Specialist for questions regarding bundling.

EPA Application Forms:

<http://www.epa.gov/ogd/forms/forms.htm>

- **Changes to the Minority & Women Business Enterprise (M/WBE) Utilization Reporting Requirement:**

The EPA issued a revised class deviation from [40 CFR 33.502](#) on **December 4, 2014**, which supersedes the M/WBE reporting requirement specified in the recipient's Notice of Award. The EPA financial assistance recipients are now required to report annually when certain conditions are met to reach a threshold of \$150,000. Please review the current information from [EPA's Small Business Programs](#).

40 CFR 33:

- **Grants Management Training Materials for Tribal Organizations:**

The EPA's Office of Grants and Debarment (OGD) worked with the national Partnership for Environmental Technology Education (NPETE) to develop [training materials for Tribal organizations](#). While OGD is no longer able to offer in-person trainings, the training materials, including the training manuals and webinar recordings, are available for download.
